ASSEMBLY INSTRUCTION for 7" Device on 110cm Floor Pedestal #C

Thank you for purchasing the CAN-AM Howen AI Automated Temperature Screening kiosk.

For any support question, please call 1-866-976-4177 ext 1001 or email support@canamwireless.com

Instruction to setup the device with 110cm floor pedestal:

1. Mount the tower using the provided 3 mounting screws at the bottom of floor pedestal tower. The screws should be in a poly bag, in the box that contains the base of the floor pedestal. Refer to figure 1.

Figure 1.

2. Open the top cover of floor pedestal tower by unscrewing the screws. Refer to Figure 2.

Figure 2

3. Remove the locknut at the bottom of the pedestal tube. Refer to Figure 3.

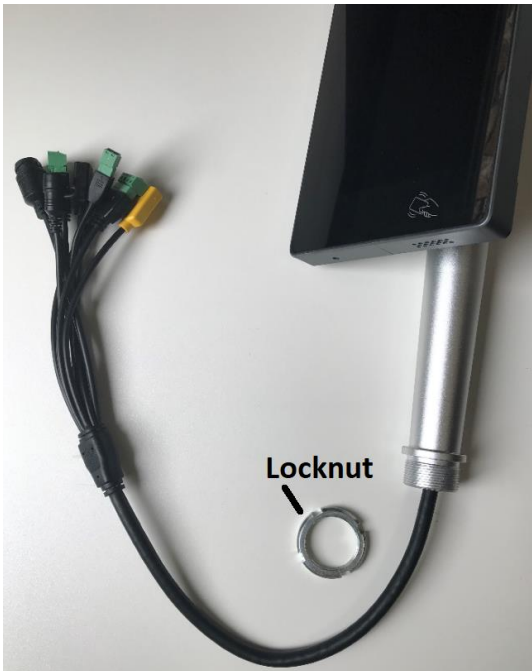

Locknut

Figure 3

4. Route the black wires thru the floor pedestal top cover and the locknut. Refer to Figure 4.

Top Cover

Locknut

Figure 4

5. Secure the pedestal tube to the top cover by installing and tightening the locknut at the bottom of top cover. Refer to Figure 5.

Locknut
