# Fleet management solutions

Oil, Gas & Mining

Increase safety and efficiency in the field

With multiple job sites in remote locations, keeping track of crew and assets can be challenging. Geotab helps you track and manage your vehicles and equipment and provides key data insights to maximize uptime and increase safety. Track your heavy equipment, yellow iron and powered trailers and assets with the IP68 and IP69K rated GO9 RUGGED™ ruggedized telematics device for harsh conditions or external installation.

The Geotab advantage

- Complete visibility of workforce, assets and costs
- Track fuel usage & idling trends
- Monitor engine hours & PTO usage
- Driver safety scorecard
- High-performance GPS technology
- Advanced dashboard reports
- Open platform for easy data integration
- Marketplace Apps, Add-Ins & Add-Ons

Named the world's leading telematics provider for the second year running, Geotab is a partner you can trust. **Speak with one of our mobility experts.**

Open platform fleet management solutions

Boost productivity & control costs
- Live tracking of fleet vehicles (real-time location)
- Improve asset utilization
- Fast, integrated mapping (add power lines, etc.)
- Aggregate data for mixed fleets

Improve driver safety
- Risk and safety reports
- Driver feedback
- Instant collision notifications
- Monitor speeding and seat belt use
- Lone worker safety system
- Reduce accidents and days lost

Manage compliance
- Improve worksite compliance
- HOS & DVIR (Vehicle inspections)
- Geotab ELD for electronic logging
- Accurate IFTA reporting
- Set policy rules and alerts

Optimize fleet operations
- Reduce engine damage
- Detect engine issues
- Detect battery drain
- Lower operating costs
- Track vehicle movement in zones
- Minimize wear and tear on equipment
- Predictive maintenance

Expandability
- IOX technology
- Software Development Kit & APIs
- Monitor PTO
- Asset tracking
- Driver ID
- Camera integration

Sustainability & green fleet tools
- Lower fuel consumption
- Track CO_2 emissions
- Reduce unnecessary idling
- GO Recycling Program

Geotab GO™ telematics device
- Fast GPS acquisition time
- Captures rich fleet insights
- Ultra-accurate engine diagnostics
- Self-calibrating accelerometer
- Over-the-air updates
- LTE connectivity

Do more with your data

- Lone worker personal alert safety system
- IRIDIUM Satellite Device Communication (IOX-SATIRDv2)
- Asset tracking application
- Geotab Drive mobile app for DVIR, HOS & Driver ID
- GO TALK Live In-vehicle Verbal Coaching
- Driver ID with NFC technology
